

EXHIBIT D

AVOID:
If you grind your teeth
at night,

it's like doing this with a
200 pound weight.

No wonder it could lead
to discomfort or more
serious damage, including
fracture, even tooth loss.

The Doctor's Night Guard

is the only soft protector
that easily molds to your
teeth

to absorb

the damaging effects.

Now without a prescription
in the dental aisle.

Call the number on your
screen for more on how
to keep your smile beautiful
